

At a Glance

Applications

Frost protection

Temperature maintenance

Pipelines

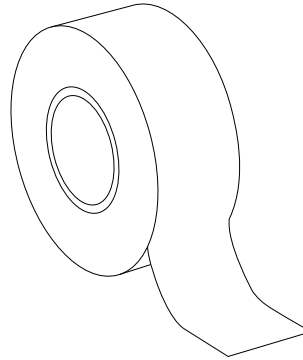

Silos, containers, tanks

Advantages

- High mechanical resistance
- Intensive adhesive
- Resistant to ageing

ELB-06C

Aluminium foil

Technical Information

Carrier	Aluminium foil, mesh-reinforced
Adhesive type:	Acrylat
Separating layer:	PE-film, white
Operating temperature:	-40 °C up to 130 °C
Band width	50 mm
Band thickness	0,13 mm
Length per roll	50 m

Ordering Information

Type	Description	Item No.
ELB-06C	Aluminium foil 50 m x 50 mm, mesh-reinforced	2701900051
