

At a Glance

Applications

Frost protection

Temperature maintenance

Pipelines

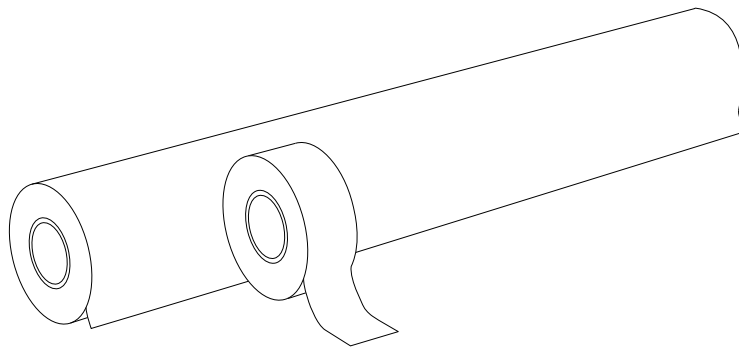

Silos, containers, tanks

Advantages

- High mechanical resistance
- Intensive adhesive
- Resistant to ageing

ELB-06 & -06D & -06E

Aluminium foil

Technical Information

Carrier:	Aluminium foil
Adhesive type:	Polyacrylat
Separating layer:	PE-film, white
Operating temperature:	-40 °C up to 140 °C
Tape width:	536 mm (ELB-06E) 75 mm (ELB-06, ELB-06D)
Tape thickness:	0,065 mm
Length per roll	50 m (ELB-06, ELB-06E) 100 m (ELB-06D)
Tearing force	≥ 30 N / 25 mm
Specification	DIN 4102 part1 class A2 and B1

Ordering Information

Type	Description	Item No.
ELB-06	Aluminium foil 50 m x 75 mm, self-adhesive	0942200
ELB-06D	Aluminium foil 100 m x 75 mm, self-adhesive	2701900076
ELB-06E	Aluminium foil 50 m x 536 mm, self-adhesive	2701900500
