Applications

- › ELKM-AG
- › ELKM-AG-E
- › ELKM-AG-N

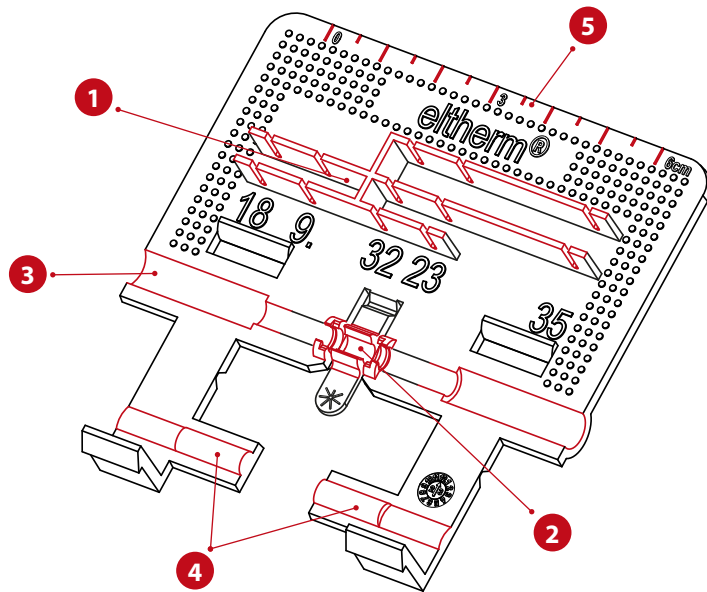

Benefits

- › Reduction of scrap
- › Precise wire stripping using the cutting guide
- › Secures the wires during crimping
- › Holds the crimp in place
- › Textured surface for a secure grip
- › Integrated ruler
- › Easy to use
- › Reusable
- › Compact design

Assembly aid

For assembling
Ex-Con 22/4 Si and Ex-Con 25/7 cable joint

The assembly aid is designed to simplify the connection process of two ELKM-type trace heaters, making it more efficient and reliable.

The assembly aid positions and securely fastens the trace heaters and crimp connectors. In addition, it features pre-cut edges to ensure the required lengths are maintained when assembling the trace heaters.

Design

No.	Description
1	Cutting guide with dimensions: Measurement-free, precise and comfortable stripping and insulation removal from the conductors
2	Positioning aid for crimp connectors: swiveling, securely holds the crimp in place
3	Cable guide: Safe insertion of the conductor and precise positioning for the crimping process
4	Cable fastening: Securely fasten the cable and its braid using the click system
5	Ruler: Centimeter ruler, measuring from 1 to 6 cm without any additional tools
